About Our Industry

We are able to provide our customers with uncompromised quality in our products and unparalleled reliability in our services. We make different grades, sizes of Granulated Activated Carbon, Powdered Activated Carbon, Acid Washed Activated Carbon and Water Washed Activated Carbon to suit each of the widest range of its Applications in numerous Industries which includes, Water Treatment Plants, Gold Recovery, Petroleum Refineries, Effluent Treatment Plants, Gas and Air Purification systems, Food and Beverage Industry etc. We have a well-equipped, modern testing laboratory and each material is tested several times during intermediate stages of production and then before dispatch. Testing procedures can be supplied on request.

PREMIUM QUALITY

Premium Quality Activated Carbon made out of Coconut Shell. It is an Eco-friendly product, making the world a greener place.

SAFETY STANDARDS

At Bright Carbon, we practice comprehensive safety standards. We work with a commitment to safeguard people and the environment.

EFFICIENT & COST EFFECTIVE

Bright Carbon is positioned in the market place as Efficient, Cost Effective and Value for Money product

Export

Blacia Exports has been moving forward on many fronts to capitalize on growth opportunities and to sharpen business portfolio's focus on the international market.

As a professionals, we know that for maintaining long term relationships with the clients it is important to deliver the premium quality goods, on-time delivery, reasonable prices and excellent packaging. Therefore to build and maintain the mutual trust and respect we are adopted fair and ethical business practices.

Our Products

Manufacturing of our all series of activated carbon starts by choosing finest quality of wood, coal and coconut shell charcoal. After choose high quality raw material, we further test the raw materials in our advance laboratory and accordingly we set the parameters of our furnace to ensure the consistent quality Activated Carbon.

Our main focus is on wood based powdered activated carbon and coal based granular and powdered activated carbon.

Wood Based Powdered Activated carbon products:

-CARBOPURE SERIES

Generally our high quality wood actived carbon best suited in warter treatment, pharmaceuticals and decolorisation.

Coal Based Granular/Powdered Activated carbon products:

-GRANULITE SERIES

Our coal Based GAC (Granular Activated Carbon) used in water treatment and pac (Powdered Activated Carbon) used in oil Refining.

Pelletized Activated Carbon products:

-COALADANE SERIES

We have two varieties of palletize activated carbon

-Impregneted palletized carbon

-Steam palletized activated carbon (wood/ coconut)
